

# Ahrend Alfa

Collection

## 01 Custom workspace

The Ahrend Alfa office desk system can boast all the advantages that we consider important at Ahrend – characteristic design, professionalism and a sense for detail. It offers a wide spectrum of uses satisfying as it does the requirements of any administrative operation, whether a large office, call centre or meeting room. A feature of the Ahrend Alfa is the steel frame comprising two side pieces and two stretchers. The Ahrend Alfa provide a high degree of resistance to standard wear and tear in an office environment.

## 02 Versions

The desks and tables in the Ahrend Alfa Collection are available in solo and duo versions. Bench and corner versions are also available.

There are also extendable tables and tops, and the desks and tables can be connected.

### **Acoustic panels**

An upholstered acoustic panel can be placed between the desks to create distance and privacy and dampen sound. These panels, all of a fixed height, create a sense of visual and acoustic calm.

## 03 Specifications

### The basics

- › The legs can be adjusted for levelling (15 mm range) on uneven floors.
- › The steel-frame base comprises two side pieces (welded leg has cross section 50x50 mm and bent profile 30x40 mm) and two linking profiles.
- › The basic desk height is 750 (18 mm top) or 757 mm (25 mm top).
- › Metal parts are finished with a high quality powder coating that ensures a high resistance to the wear and tear common in an office environment.

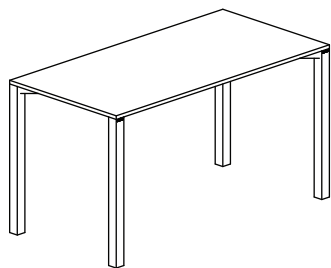

### The options

- › Bench workstations
- › With Ahrend pedestals and cabinets a complete workstation can be created
- › Available accessories – screens with holders or vertical or horizontal cable management, CPU holder, integral power supply

### Dimensions

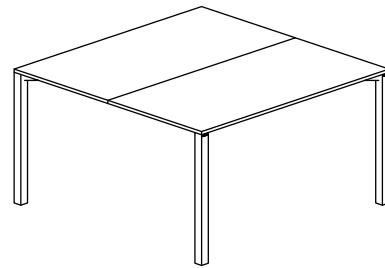

- › Tabletop widths: 120, 140, 150 and 160 cm
- › Tabletop depths: 60, 70 and 80 cm

Fixed height (H750 mm)  
Powder coated steel frame and leg

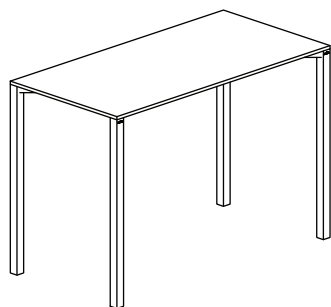

## Alfa Duo

Fixed height (H750 mm)  
Powder coated steel frame and leg

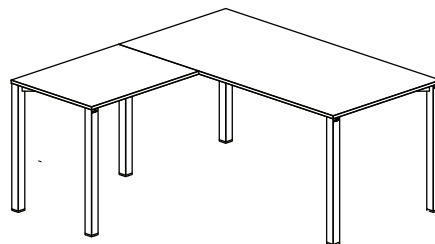

## Alfa Quattro

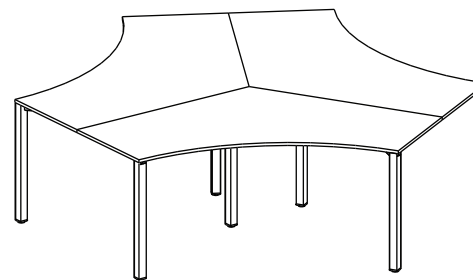

Fixed height (H750 mm)  
Powder coated steel frame and leg

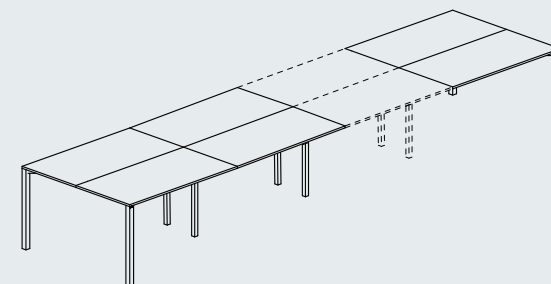

\*Alfa high table available upon request (H1100mm)

\*Alfa L-shape available upon request

\*Alfa 120° available upon request

The selection range can be a separate table, a table for two, four, eight, ten, twelve or more. A large table is necessary for working in teams, or for the use of Clubdesks (flexible workstations); this is possible with Alfa. Optimal leg freedom is created by using a smaller leg bridge in the centre, without compromising stability. The construction ensures more flexibility and convenience (for cleaning).

# 05 Materialisation

Multiple tabletop material, table finish and paint colour options allow these desks and tables to be assembled to suit your requirements. They will always match the look and feel of the office or home environment.
