

IC

Gispen IC

Minimalist desk and conference table programme with slender open frames and floating worktop that keeps the environment visually open.

Generous worktop dimensions make the tables multifunctional. Extra-large leg bridges assure maximum legroom and savings on material use.

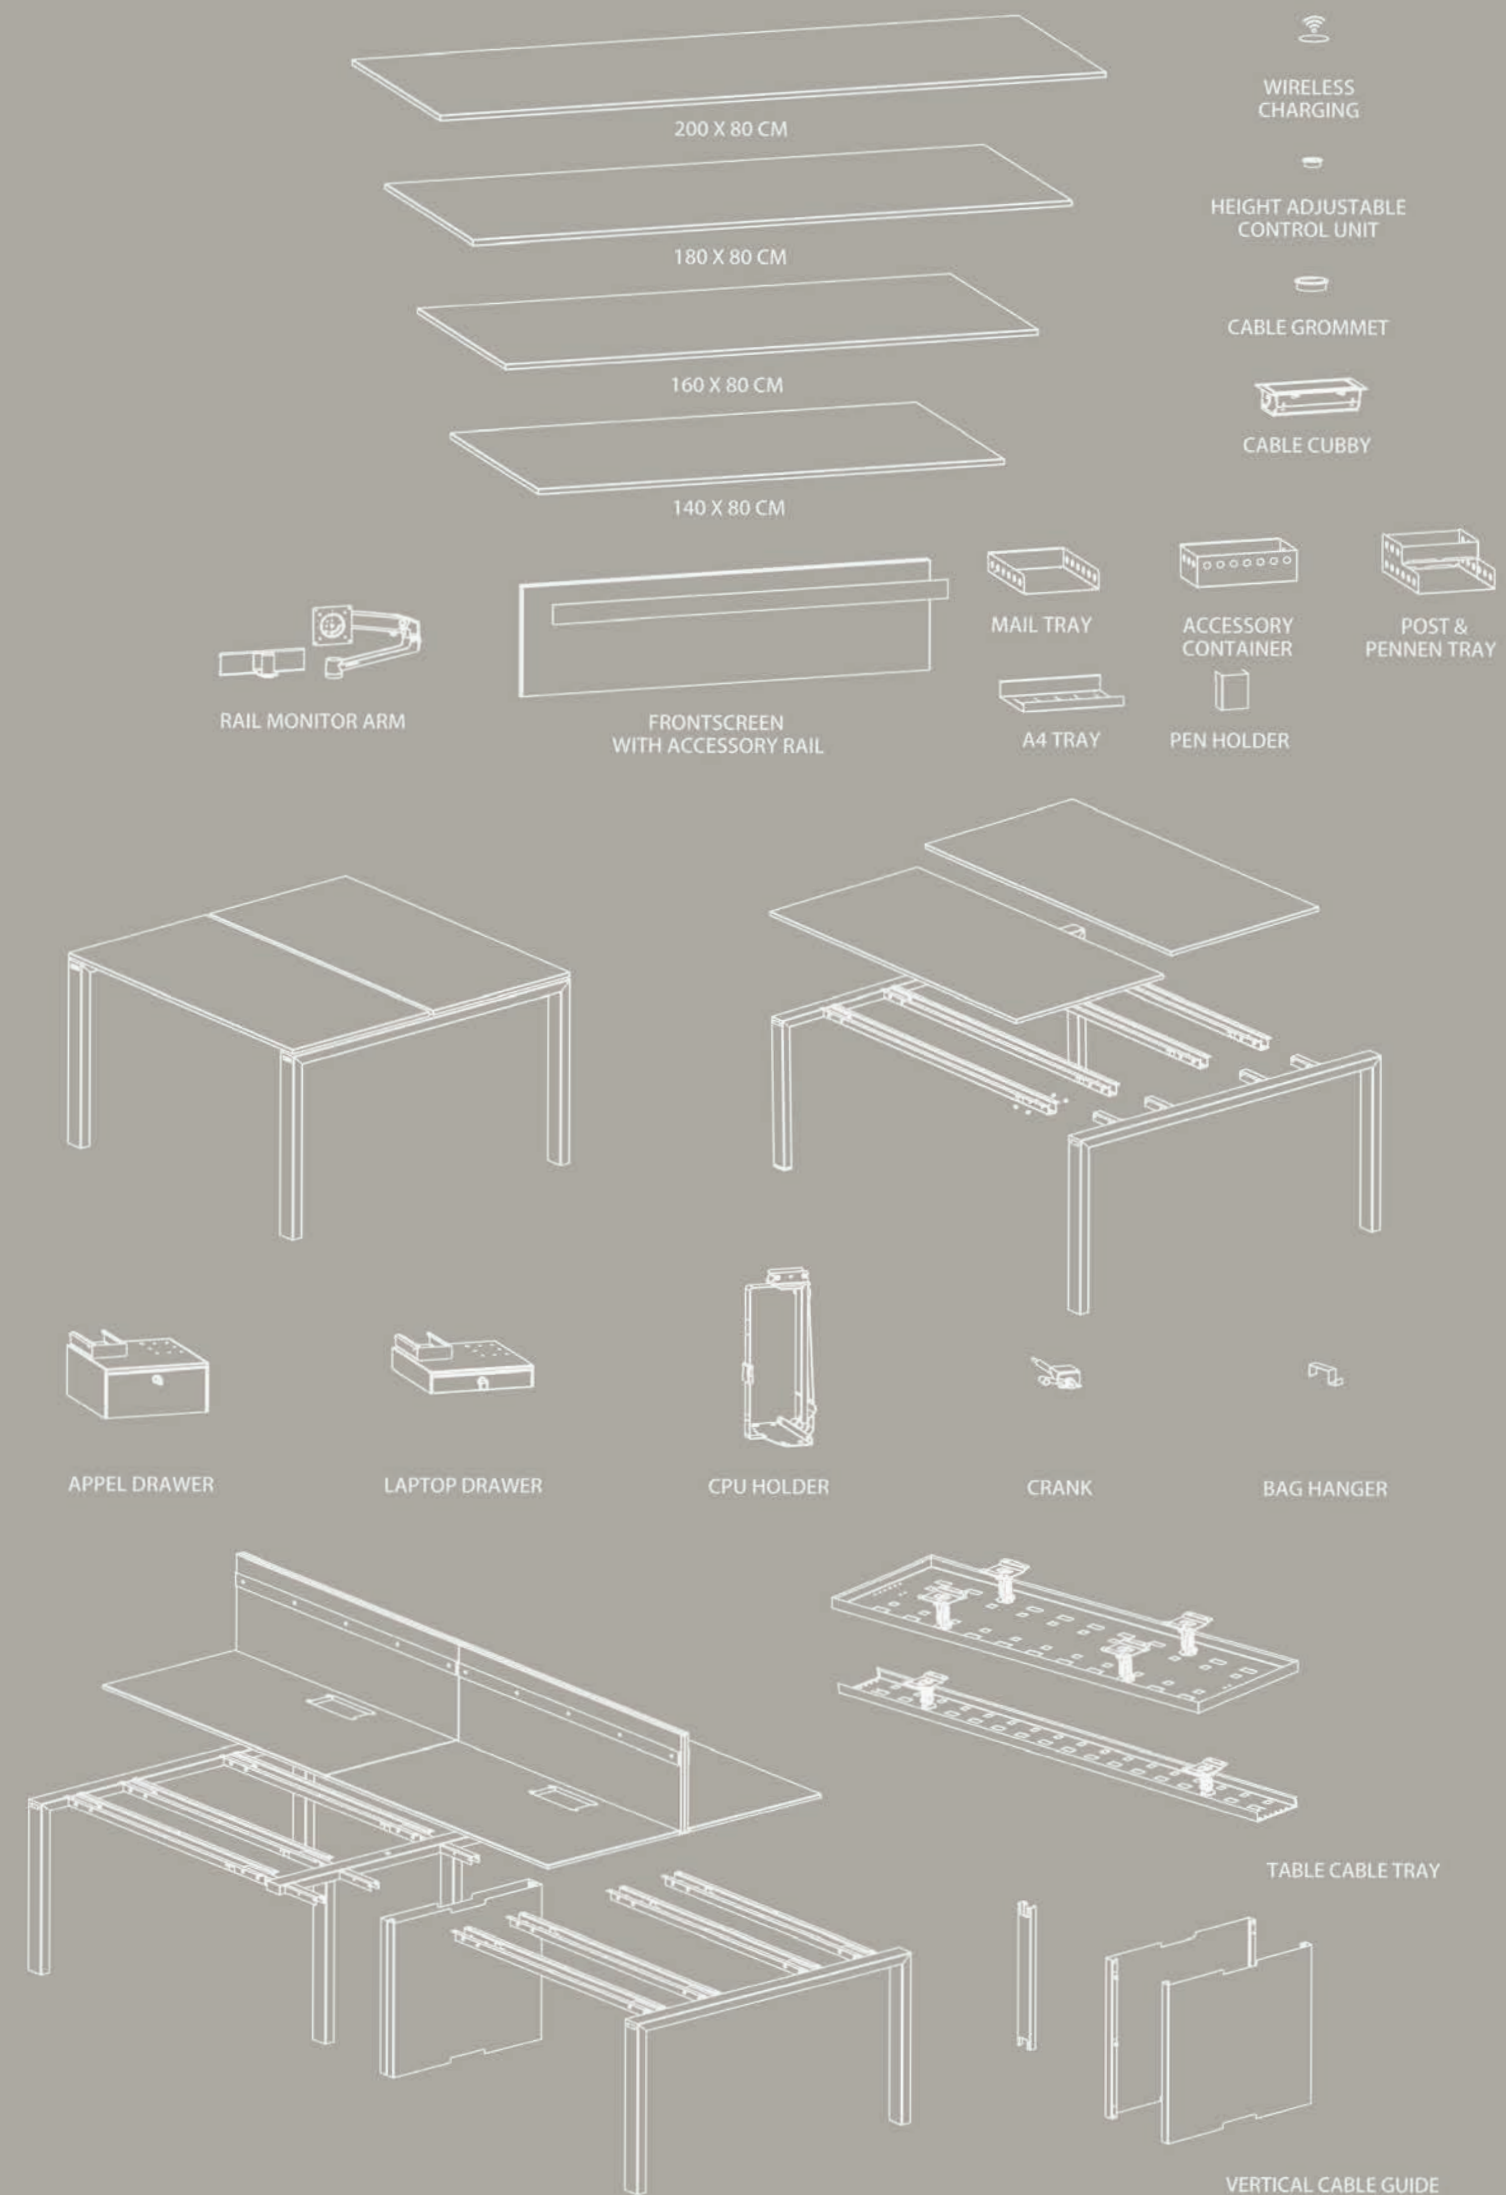

Programme

- > Optimal legroom
- > Height adjustment integrated in frame
- > Easy operation
- > Stability thanks to smart construction
- > Clean design, floating worktop
- > Desks and conference tables with the same look and feel
- > Broad range of width and depth options
- > Compliant with NEN EN 527
- > Easy to disassemble, parts can be separated for re-use

SOLITARY –DUO – MANAGER – CLUB DESK - CONFERENCE

A large table is necessary for working in teams, or for the use of Clubdesks (flexible workstations); this is possible with IC. Optimal leg freedom is created by using a smaller leg bridge in the centre, without compromising stability. The construction ensures more flexibility and convenience (for cleaning).

Frame

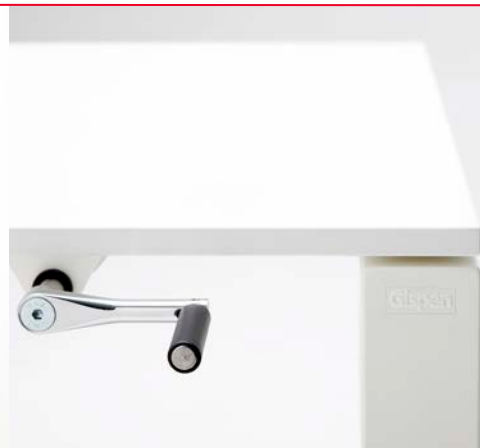

Gispen IC's frame facilitates either a fixed or a variable worktop height.

The legs can be fixed, adjustable or adaptable.

- > Fixed height: 75 cm
- > Height adaptable: 62-90 cm, per 2 cm
- > Height adjustable: 62-90 cm, infinitely adjustable, manual or electric

Operating panel for infinitely adjustable, electric adjustment

Hand crank for infinitely adjustable, manual adjustment

Worktop height can be easily adapted at 2 cm settings, adjustable shims for fine-tuning if the floor is uneven

Adjusting caps to accommodate unevenness in the floor

Accessoires

Screens

To improve acoustics and increase privacy, IC tables can be equipped with functional and atmospheric screens to separate 2 work places.

Options

You can use a CPU holder to position the computer unit, vertical and horizontal cable ducts are available for smart cable management.

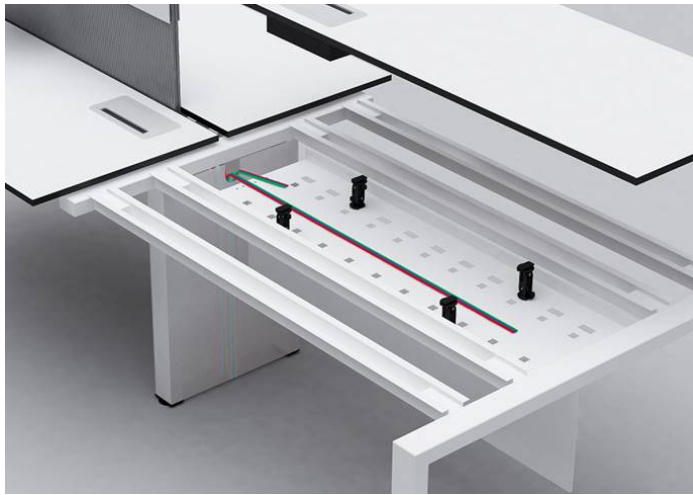

CPU holder

Vertical cable duct

Cable duct

Sliding top

The smart design of IC sliding top maximizes the usage of workspace and makes the cable management much more convenient and tidy.

CSR

For Gispen, Corporate Social Responsibility is integrated in its business operations. Gispen’s CSR policy focuses on three dimensions: People, Planet and Profit. To us, being sustainable means maximising human welfare whilst minimising our environmental impact.

Lifecycle and re-use always form the basis of our product designs. They determine how the products are produced and ultimately how they can be recycled. Each year, we raise the bar.

Gispen was recently voted the greenest company in the Netherlands.

Gispen’s environmental management system has had ISO 14001 certification since 2002.

We are also EMAS certified. Furthermore, we comply with ISO 26000, MVO monitor, MVO self-assessment, Lean & Green and a plan for the sustainable employability of our personnel.

We must demonstrate our compliance for these.

Our production is CO₂ neutral.
